

Billet Clevis Sets for Roll Cage and Roll Bar Swingouts and Removable Back Braces

Tab and Clevis Combination - Tabs are used when welding directly to main hoop or cage side. Common for back braces and side bar use.

Blade and Clevis Combination - Blades are used for attachment to the ends of tubing. Generally used when extending the swingout pivot or latch into the door opening to clear the A- or B-pillar.

Billet Swingout and Back Brace Clevis Sets

Over the last twenty years, the Chassisworks invented billet swingout and back-brace clevis sets have been the hardware of choice for thousands of builders across all disciplines of motorsports. Various combinations of billet-steel clevises and blade-style eyebolts with lasercut 3/8"-thick mount tabs facilitate the addition of removable back-braces and NHRA-legal side bar swingouts. Eyebolts are specifically sized to fit NHRA required main-hoop back brace and side bar tube sizes; 1-5/8" x .134" and 1-3/4" x .134" mild-steel and 1-5/8" x .083" chrome-moly. Accompanying 1/2" hardware includes Grade 8 bolts or quick-release pins for easy removal. Detailed instructions with professional chassis builder tips included; also available online.

Note: Legality of use varies between sanctioning bodies and must be verified prior to installation.

Tube Sizes:

- 1-5/8" x .134"
- 1-5/8" x .083"
- 1-3/4" x .134"

Features:

- Billet Steel Clevis and Blade Eyebolts
- Heavy 3/8" Thick Tabs
- NHRA legal (limited classes)

Swingout Bent Tube Mount, Two Clevis & One Blade Eyebolt

Use with roll bars that do not have a cage side to attach front mount.
Contains components for one side bar.

Part Number	Tube Size x Wall Thickness	Maximum Tube ID
7033	1-3/4" x .134"	1.482"

Swingout Clevis and Two Tabs

For roll cage side bar; includes Grade 8 pivot bolt and removable Faspin hardware. Contains components for one side bar. *Side bar tube not included.*

Part Number	Tube Size x Wall Thickness	Maximum Tube ID
7038	1-5/8" x .083"	1.459"
7008	1-5/8" x .134"	1.357"
7031	1-3/4" x .134"	1.482"

Swingout Clevis & One Blade Eyebolt

For roll cage side bar; includes Grade 8 pivot bolt and removable pin hardware. Contains components for one side bar. *Side bar tube not included.*

Part Number	Tube Size x Wall Thickness	Maximum Tube ID
7046	1-5/8" x .083"	1.459"
7030	1-5/8" x .134"	1.357"
7032	1-3/4" x .134"	1.482"

Swingout Clevis and Two Blade Eyebolts

For roll cage side bar; includes Grade 8 pivot bolt and removable pin hardware. Contains components for one side bar. *Side bar tube not included.*

Part Number	Tube Size x Wall Thickness	Maximum Tube ID
7047	1-5/8" x .083"	1.459"
7036	1-5/8" x .134"	1.357"
7037	1-3/4" x .134"	1.482"

Removable Back Brace, Quick Release Style

Attaches to roll bar or cage main hoop; includes pin hardware. *Contains components for one back brace bar; tube not included.*

Part Number	Tube Size x Wall Thickness	Maximum Tube ID
7041	1-5/8" x .083"	1.459"
7034	1-5/8" x .134"	1.357"
7035	1-3/4" x .134"	1.482"

Harness Bar Dual Clevis with Bolt-On Interior Panel Mounts

Serves as a B-pillar anchor point for over-shoulder safety harnesses when a complete roll bar or cage is not an option. *Harness bar tube sold separately.*

Part Number	Tube Size x Wall Thickness	Maximum Tube ID
5920-4HY	1-5/8" x .134"	1.357"
E26.134-060.000	1-5/8" x 60" long	1.357"

All prices subject to change. Current pricing available at www.cachassisworks.com.
